

GATE CHURCH CARBON SAVING PROJECT

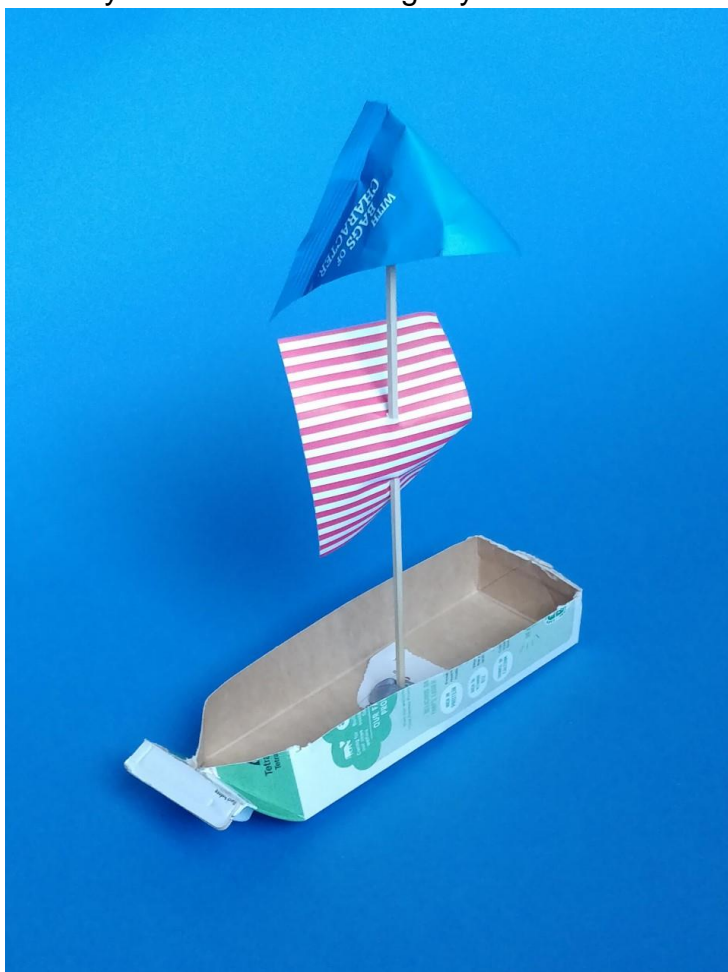

Make a Junk Boat

What Do I Need?

An old milk or juice carton
a stick (can be from a tree or use a skewer)
paper or fabric for the sail
small amount of blu tac or plasticine
Scissors

Step 1

Place your carton down longways and cut it in half

Step 2

Put a blob of blu tac or plasticine in your boat and secure your stick

Step 3

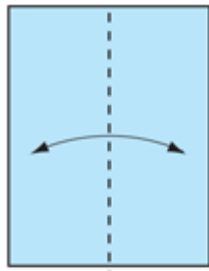

add a top sail if you wish

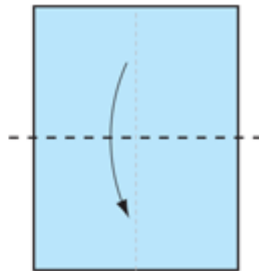

Step 4

If you can find a safe place to float your boat outside, go ahead - but remember not to leave it there. When you have finished with it recycle the carton, paper and stick
If you can't get it outside it will float very nicely in your bath

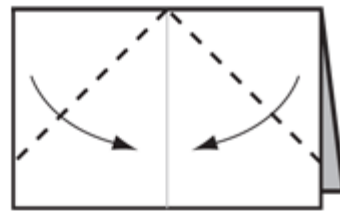

If you would like to make a paper boat like the one in the picture, get a square piece of paper and follow these instructions

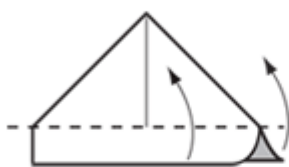

1. FOLD IN HALF

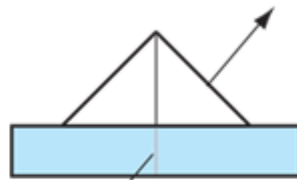

2. FOLD IN HALF AGAIN

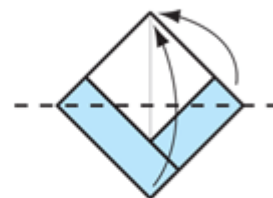

3. FOLD IN CORNERS

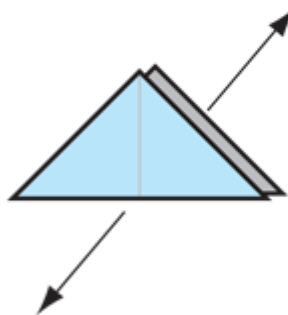

4. FOLD UP EDGES ON BOTH SIDES

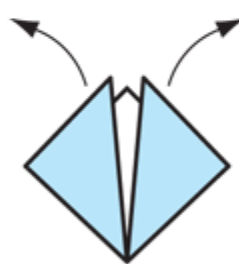

5. PULL THE SIDES OUT AND FLATTEN

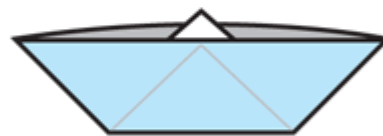

6. FOLD FRONT AND BACK LAYERS UP

7. PULL SIDES APART AND FLATTEN

8. PULL TOP FLAPS OUTWARDS

9. SQUISH THE BOTTOM AND PULL THE SIDES UP

10. TA DAAA!
